NEW FEATURE IN HILL CASE

Neighbors of Hill Family
Have Been Receiving An-
onymous Letters.

Prosecutor Bassett Has Theory
—Not Ready to Take
Action.

The Hill murder case at Shelbyville continues to be the talk of many people in that city. There is not the slightest clew as to who the real murderer is.

Prosecutor Bassett says that his opinion is that some one entered the Hill house for the purpose of robbery. "He did not expect to get much," explained the prosecutor, "a small sum of money perhaps. There was no idea of jewelry, the amount sought for being sufficient to tide the man over for a few days. Perhaps the robber saw Mrs. Hill go away and with her was Mrs. Antie, the back window of whose house faced on the Hill yard so there was no one who could have seen the robber go into the Hill yard except Mrs. Antie and she was away. This some one in my opinion was either a half grown boy or a degenerate who was discovered by the child and who thought that this discovery would lead to his identification or an arrest, and to silence her he struck the blow. It might have been a dope fiend who entered the house, a man of weak mind who imagined the child would be able to identify him in court and he put her life out to keep her from testifying. Or she might have screamed and he struck the blow to silence her with no intention of killing her. A professional robber would try to get away even from a person who was competent to identify him in court. He would not commit murder to hide a crime that did not carry with it a severe punishment. A robber would know that this four year old child would not be a competent witness against him even if he was caught and he would not leave a train of murder behind him. Now when this crime is solved it will be found that an undeveloped mind or a mind weakened with drugs committed it."

"Have you enough evidence to justify the calling of a special grand jury?"

"I have not. We have examined the witnesses as closely as the grand jury could and at this time there is no need of a grand jury investigation. Our grand jury meets in October and before that we have hopes that we will have sufficient evidence to justify a grand jury inquiry."

Dr. Tindall, the family physician, of the Hills, says that it would be impossible for the child to have received such a wound by falling from a chair. The nature of the wound was such that the child to receive it in a fall would have had to turn almost a three-quarters somersault and even then he doubts if the wound could be inflicted by striking the floor or ground. "The theory advanced by some is that the child was standing on a chair rummaging the bureau drawers and fell. Dr. Tindall does not believe that theory possible. The child he says, would not, did not have sufficient strength to rummage the bureau drawers and turn their contents over in the way they were found. And if she had attempted to do so and fallen she would have walked or crawled a distance of almost thirty feet to the room in which the doctor says is an impossibility. The doctor is satisfied that the death wound came from a plausible instrument not a fall."

Mr. and Mrs. Hill have returned to Shelbyville and are living in the house where their child died. Mrs. Hill is extremely nervous and her physician has warned her not to talk about the tragedy any more than possible because of the effect it will have on her health. Both believe that the child was killed by a robber.

It has developed that Mr. and Mrs. Morris Thurston, who lived next door to the Hill house, are victims of anonymous letter writers. Thurston has received letters reflecting on his wife and the wife has received letters reflecting on her husband. Thurston said he knew the child well and the child knew him and he thought a great deal of the little one and he was very much shocked when he learned of her death. Both Mr. and Mrs. Thurston say they don't believe that the letters they received have any connection even in the remotest with the death of May Hill.

NOT IN INDIANA

Fortunately Our Laws Prevent
This Horrid Suggestion's
Practice.

Boston, June 26.—Amalgamation of the white and colored races through intermarriage as a solution of the race problem was advanced Sunday by Charles W. Chestnut, a well-known negro author, of Cleveland, O., in an address before the Boston Literary and Historical association. Mr. Chestnut, who is here to attend his son's graduation from Harvard, spoke on "Race Prejudice, Its Causes and Cure." After discussing the differences between the two races the speaker said: "The most difficult of the differences which hold us apart from our fellow citizens is our difference in color. Should this difference disappear entirely, prejudice and the race problem would cease to exist. I not only believe the mixture of races will in time be an accomplished fact, but that it will be a good thing for all concerned."

FATHER ROWAN MAY LEAVE CITY

May be Appointed Priest of
Holy Trinity Church at
New Albany.

A dispatch to the Indianapolis News from New Albany, Ind., says: "The Rev. F. T. Porter, of Belding, Mich., has accepted a call to the Park Christian church, this week, succeeding the Rev. W. A. Ward, who accepted a call to Henderson, Ky. And also that the Rev. Father Rowan, of Rushville, will be appointed priest of Holy Trinity Catholic church, this city, succeeding the late Rev. John B. Kelly, the Rev. E. R. Kenney to continue as assistant rector."

WAS CAUGHT IN THE VERY ACT

Italian Robber is Caught in
Wheat Field Near
Arlington.

There was considerable excitement in Arlington and its vicinity Saturday afternoon the occasion being the arrest of an Italian caught in the act of looting the farm residence of Hugh Burt.

The farm is located about three miles north of Arlington. About 3:30 in the afternoon, Mrs. Burt found a man in the act of looting the house. Upon being discovered the fellow fled, but succeeded in carrying away several articles of wearing apparel. It was noticed that the fellow was barefooted, that he carried a parasol and that he acted very strangely.

The man ran through a wheat field toward an adjoining woods. Mrs. Burt summoned the neighbors by telephone and the farmers turned out, gun in hand, to round him up. The fellow was surrounded in the wheat field and captured. He was found to be an Italian laborer, who could speak very little English.

Sheriff Bainbridge was summoned and after handcuffing the man he took him to Arlington, where a preliminary trial was held in Squire Ball's court. The fellow was bound over to the circuit court and the Sheriff brought him to this city on the 5:30 car and placed him in jail. The man seemed sane enough, but some of the people at Arlington are of the opinion that he is demented.

A large crowd attended the Children's Day exercises at the St. Paul's M. E. church. A very pleasing and interesting program was rendered. All of the children did creditably in the rendition of the program. Mrs. Tevis was the accompanist at the piano.

Mr. and Mrs. J. T. Johnson visited in Rushville Sunday.

AGAIN TO THE FORE

President Roosevelt is Be-
lieved to Have Made
Another Hit.

It is Declared in St. Petersburg
That Important Point Has
About Been Arranged.

Washington, June 26.—It is reported unofficially that President Roosevelt has been informed by Mr. Meyer, the American ambassador at St. Petersburg, of the selection of the Russian peace plenipotentiaries.

St. Petersburg, June 26.—Negotiations for the peace conference have taken an important step forward, a proposition for the date of the meeting of the plenipotentiaries at Washington having been submitted to Russia and being now under consideration. The exact date proposed has not been ascertained, but there is reason to suppose that it is some time during the first week or ten days of August, which is about the earliest period at which the Japanese representatives could reach Washington, allowing reasonable time for the acceptance of the proposal and the interchange of the nominations of plenipotentiaries.

The emperor's answer is not expected for a day or two, as the diplomatic mills of Russia grind slowly and the foreign office, as one of the secretaries put it, "is not used to your bustling American methods"; but it is thought that the date will be satisfactory, as it will give ample time for M. Nelidoff, the Russian ambassador at Paris, or other Russian negotiators to reach Washington, and as there will be little preliminary work for them to do until the Japanese terms are submitted.

Whether the proposal regarding the date originated at Tokio or at Washington cannot be learned, but the fact that the negotiations were conducted through Ambassador Meyer may indicate that President Roosevelt has perhaps again stepped to the fore and suggested to the two powers, neither of whom would be willing to take the initiative, a suitable date.

Ambassador Meyer is still exchanging communications with Foreign Minister Lamsdorff by letter, the minister being confined to his apartments in the ministry, but in his latest note, written by his own hand, Count Lamsdorff expressed the hope that he would have sufficiently recovered to permit of personal exchange of views today. M. Neratoff, under minister of foreign affairs, and the spokesman of the foreign office, in an interview in the Gazette, declares an armistice pending the meeting of the plenipotentiaries is improbable, and he comments on the possibility of a battle taking place before a conference is held.

MAIL CLERKS PROTEST

They Declare Against Terrific
Speed Maintained by New
Trains.

Goshen, Ind., June 26.—United States mail clerks running through northern Indiana and with runs from Chicago to Cleveland on the Lake Shore, have taken a pronounced stand against the time-annihilating schedules adopted by the Lake Shore & Michigan Southern Railway company in its competition with the Pennsylvania company to retain the contract with the government for hauling the famous white mail, established in 1873.

Since the wreck of the Twentieth Century train at Mentor, O., the mail clerks are preparing to use their organization against what they term an unreasonable speed. Running through yards, around sharp curves and over switches at a rate faster than a mile a minute, they declare, is too dangerous for ordinary safety, and there is a general scramble to get on the slower runs.

This city is general headquarters for most of the men now in the United States railway postoffice service between Chicago and Cleveland. Almost without exception they are arrayed in opposition to the new schedules.

CONNERSVILLE 3 GREENSBURG 1

Many Fans From This City
Saw Good Game at Con-
nersville.

Two hundred and thirty-seven base ball fans from this city took advantage of the Greensburg base ball special and went to Connorsville Sunday, where they witnessed a splendid diamond battle between the Greensburg and Connorsville teams. In all three thousand and six hundred people saw the game. Four hundred and sixteen tickets were sold at Greensburg.

Jot Goar, the ex-leaguer, was in the box for Connorsville, while Greensburg had, pitted against him Reughter, of the Galveston, Texas League team. Both men pitched splendid ball, but Goar had slightly the better of the argument. He had speed to burn and superb control and had the Greensburg sluggers completely at his mercy all through the game. Each team put up a splendid game in the field, but Connorsville gained an advantage at bat by reason of their many long hits, two and three base ones coming at the proper time.

Umpire Quinn handled the indicator and with one exception, his decisions were fair and to the point. He umpired a much better game than he has ever tried to do against Rushville. He called a Connorsville man safe at second, however, early in the game, when he appeared to be out by at least two feet. Figert, Connorsville's center-field, made an exhibition of dirty ball playing when during an altercation with Hunch, Greensburg's catcher, he attempted to spike him and then attempted to strike him with his bat by swinging it behind him. Hunch, however, saw the movement and dodged the blow.

There was some betting and considerable money changed hands over in the east grandstand. The entire field was surrounded by people. It was the largest crowd that ever witnessed a game at Connorsville.

After the game the Connorsville Elks royally entertained the Greensburg and Rushville Elks and their friends at their club rooms. The Connorsville Elks' quarters are fitted up in royal style and are second to none in the State, with the possible exception of those at Greensburg. A large number of Connorsville people will witness the ball game here Wednesday between Rushville and Greensburg.

Arrangements, it is said, are being made by the managers of the Greensburg and Connorsville teams to play the third and deciding game in Rushville.

The score: 1 2 3 4 5 6 7 8 9—R H E
Connorsville 10 0 0 1 0 0 1 x—3 5 3
Greensburg 0 0 1 0 0 0 0 0—1 2 0

LOCAL TEAM DROPS TWO

Rushville is Defeated at
Lebanon and Mar-
tinsville.

Connaughton Pitched Splendid
Ball at Lebanon—Good Game
at Martinsville.

The Rushville team arrived home last night from its trip abroad with one game won and four lost to its credit. The team is still in a crippled condition and the men intend to rest up until Wednesday, when they meet the Greensburg bunch in this city. McCord was expected back from Louisville today. Manager Geraghty is confident of winning Wednesday's game with Greensburg and he will put a team in the field that will be fully capable of doing the trick. A big surprise is promised for the fans when the team trots out on the field Wednesday afternoon.

Saturday, in a close and exciting game at Lebanon the locals were defeated by a score of 2 to 1. The game was full of close decisions and exciting plays. Connaughton was in the box for Rushville and pitched splendid ball. Rushville lost through their inability to hit Schurr, the Lebanon pitcher. A few hits in the first inning netted Rushville one run.

Score: 1 2 3 4 5 6 7 8 9—R H E
Rushville 10 0 0 0 0 0 0—1 4 0
Lebanon 0 0 1 0 0 0 0 x—2 4 1
Batteries, Connaughton and Morgan, Schurr and Hardin.

Sunday, Rushville played at Martinsville and in another close game went down in defeat. Costly errors on the part of the locals caused the downfall.

The game, nevertheless, was a good one and it kept the Martinsville fans guessing as to the outcome. Wagner was on the firing line for the locals and despite his injuries pitched a fine game. Tomlin, who pitched for Columbus here on Sunday a week ago was in the box for Martinsville. Score: 1 2 3 4 5 6 7 8 9—R H E
Martinsville 0 0 1 0 0 2 0 x—3 5 1
Rushville 10 0 0 0 0 1 0 0—2 6 4

NEW CASTLE IS A CHOSEN CITY

Third Regiment U. R. K. of P.
Will Hold Annual Meet-
ing There.

The annual meeting of the Third Regiment of the Uniform Rank, Knights of Pythias, will unquestionably be held at New Castle next June and all of the members of the New Castle organization are working industriously at drill with one idea in view, that of outclassing everything in the way of a uniform company which may come "down the pike" next summer.

The New Castle company ranks second in the regiment and next year they hope to outclass Rushville, which has the regimental prize pennant. In only one or two features is Rushville ahead of New Castle and the boys in that city think that with the closest attention to all drill work, they will be able to take the laurels from Rushville when the time comes.

Meantime the Rushville company is letting no grass grow under its feet and the New Castle company will find that next year they will go up against a harder proposition than ever before.

A woman has no sense of humor. That's why she takes a man seriously.

CAN HAVE FRESH EGGS

Treated With a Liquid They Re-
main Good to Eat After a
Long Time.

No affidavits accompany the following statement, but as the scene is in the Quaker city of Richmond, the story seems worthy of reproduction: In the presence of witnesses, P. J. Connell, a Richmond man, placed a dozen eggs in a stone jar four years ago, after preparing a chemical preparation which he claimed would preserve the eggs for any length of time. Recently the jar had been sealed and tagged with the date the eggs were placed within was broken open. The eggs stood all the tests known and after having been broken were cooked and eaten by Connell and the party. It is declared that after four years' time they were in as good condition as on the day they were sealed up in the jar.

LOCAL BREVITIES

—Miss Powell, of Anderson, is visiting Mr. and Mrs. Robert Innis and family.

The Holiness meetings on West Seventh street seem to be drawing good sized crowds.

—Misses Grace Butin and Inez Pigman, of Connorsville, are the guests of Miss Pearl Widau.

County Supt. Headlee has mounted his double-crested cormorant and has it on exhibition at the Sheriff's office.

—Mrs. Fannie Shideler and son Paul and Mrs. C. Behymer, of Irvington, spent Sunday with T. A. Jones and family, of Walker township.

—County Superintendent W. O. Headlee went to Indianapolis this evening to attend the meeting of the county superintendents. He will return on Saturday.

—Miss Ethel Dowden, who has been visiting her aunt, Mrs. Bertie Wexler, at Irvington, returned home this morning accompanied by her cousin, Miss Eva Wexler, who will visit here for several weeks.

Parks M. Martin, State Tax Commissioner, visited the County Board of Review today and advised it on certain lines of work. In company with the Board of Review, he inspected the property of the I. & C. Traction company relative to its assessment.

—Shelbyville Jeffersonian: E. S. Vance, superintendent of the Metropolitan Insurance company, of Rushville, spent Sunday with friends in this city. —Mrs. Thomas Scanlan, who has been visiting her sister, Mrs. Martin Updegraff, has returned to her home in Rushville.

The Greensburg Graphic is of the opinion that Greensburg was robbed in the ball game at Connorsville yesterday. The Graphic, in part, says: Well! We don't think we'll ever go back to Connorsville, unless they agree to furnish an umpire with a good pair of eyes. What might have been a batting rally by the Reds in the ninth inning was nipped in the bud by the rotten decisions of the umpire, who called two men out who were safe by two feet.

Connorsville News: George Rusk, living in Rush county, was arrested Friday, by Constable Osborne, on a warrant sworn out by the latter, on information, charging him with carrying concealed weapons, and brought here for trial. Rusk was arraigned Saturday morning before Justice Cates, and on a plea of guilty was fined with costs \$13.75, the costs being greater because of larger amount for mileage. The fine was paid. The arrest grew out of some trouble at a festival at Bentonville, when Rusk is alleged to have made certain threats and some young men found a revolver in his possession and took it away. He was very anxious to ascertain the name of the person who had "indicated" him as he expressed it, but got little information from the officers.

ment: "Well, I've always heard that these Jappers were a wide-awake people, but, gad, I never expected to find them able to name a man's native State the minute they set their eyes on him! Yes, my man, I'm from Ohio —Columbus, at that! Ride me to the best hotel!"

GOWDY LONGS FOR HOME

The Family Will Again Be-
come Residents of Rush-
ville in October.

His Residence on North Perkins
Street Will Soon be Prepared
For the Home Coming.

Last Saturday's Indianapolis News published quite a lengthy interview of its Paris staff correspondent, E. I. Lewis, with our esteemed fellow-townsmen, Consul General J. K. Gowdy. In speaking of his home coming Mr. Gowdy is quoted as saying:

"I have just four months more of it and then I will start for home and a good long rest. Home—in all that the word means to us Americans—has always been Rushville, Ind., and we want to go back to the scenes of the old days and to the old friends. Those associations always are the ones that tug at the heart cords of the American abroad."

When it was suggested by the correspondent that a great many changes had taken place in Rush county since his absence, Mr. Gowdy said:

"When we go back we shall find that many of our old friends are gone—there will be youngsters that we never saw, but it's home just the same, and we're headed for it. We have begun to pack already up at the house. I turn the office over to Mr. F. H. Mason, my successor, on the last day of September, and we expect to sail for America the first week in October. I am not a very good sailor, and we shall probably cross on one of the big boats—the larger and steadier the better. I have written to Rushville informing the occupant of our old home that we shall wish to occupy it in October, and it will be ready for us. We hope to get back to Rushville between October 20th and 25th."

In speaking of Mr. Gowdy's appearance, the correspondent says: "His Rushville friends need not be afraid that his eight years abroad have changed 'Uncle Jack' to any extent, and that his acquisition of the polite language has resulted in his not being able to understand and talk the Hoosier dialect. Perhaps nothing would please him better than to have his old friends greet him with 'howdy.'"

In appearance his Indiana friends may expect to see a somewhat different man from the one that left eight years ago for Paris. In the first place, Mr. Gowdy is somewhat heavier and perhaps somewhat younger. He has shaven smooth and dresses more sedately than when he was running Indiana politics. In other respects, however, he will be found the same man—affable, easily approached and rather 'fatherly'—one of the characteristics that always has been a great asset in his public life."

"Mrs. Gowdy, who has suffered much from inflammatory rheumatism during her stay in Paris, is now in very good health and greatly cheered by prospects of 'getting back home soon.' Miss Fanny Gowdy, on whom have fallen many of the social duties of the family, is very popular in Paris, and already preparations are being made by her friends to give her a royal farewell. Notwithstanding the stories that she was to marry here, she will return with General and Mrs. Gowdy to make Rushville her home."

The importance of the Paris consular generalship, which carries direct supervision of most of our twenty-two consular stations in France, has greatly increased during Mr. Gowdy's tenure in office. When Mr. Morris was consul general, back in 1894, the French exports from Paris to the United States ran \$21,000,000 for the year. In 1895 they went to \$32,000,000. In 1896 they fell back to \$26,000,000. In 1897 they went to \$39,000,000. Last year they were \$41,500,000, and will run over \$42,000,000 this year. The big items of export to the United States from Paris are women's wearing apparel of all kinds and automobiles. The exports from the United States to Paris, strange as it seems, also have been largely swollen by American autos.

POLITICAL GOSSIP

All Signs Point to Re-Election of
Chairman Goodrich.

Indianapolis, June 26.—That James P. Goodrich of Winchester will be re-elected chairman of the Republican state committee is the continued prediction of "Jim" Watson, congressman from the Sixth district. He says that Goodrich will not be an avowed candidate, but if the committee wants him to take the place again he will take it. Goodrich, he declares, will never make a fight for it, but he thinks Goodrich will be agreed on by the party leaders when the time comes for the reorganization.

Doubt has lately arisen in the minds of some of the men connected with the present state administration as to whether or not Governor Hanly is going to be able to "keep the lid on" in the larger cities during the next four years as he has set out to do. He is a determined man, but it is pointed out that he is already having much trouble keeping the metropolitan police boards keyed up to the pitch where they will enforce the laws as rigidly as he demands. He has been in telegraphic communication with the Michigan City and Elwood police boards and has demanded of them again that there be no loosening of the strings. A member of the Marion board has resigned. No reason has been assigned, but it may be that the governor was demanding a pace too strenuous. It is intimated that he will call for a lot of resignations of members of the police boards unless there is a tightening of the lines.

It is evident that the Democratic leaders of the Twelfth district don't believe that the landslide of last November is a criterion as to what will be the result there during the next campaign, as there promises to be a large field of candidates for the Democratic nomination for congress in the district. A. A. Adams of Columbia City, district chairman, has announced that he would like to make the race. Otis L. Ballou of Lagrange and Judge Stephen A. Powers of Angola are also said to have aspirations in the same line. The district was Democratic for several years prior to the landslide last November, when Congressman Robinson was defeated by Newton W. Gilbert of Fort Wayne. The Democratic leaders in the district believe they have a chance to redeem it next year. Former Congressman Robinson may also make the race again.

The report that he intends to become a candidate for the district chairmanship here is denied by L. C. (Baron) Rothschild, who says there is no ground for it. From what can be learned of their plans neither of the factions have any definite plans regarding this district. William Bosson, who was a member of the Marion county delegation in the house during the recent session of the legislature, will be a candidate for membership to the Republican state committee from this district. He is trying to line up the leaders and workers now and has held out his first string to the latter by having printed and distributed among them with his compliments booklets containing the personnel of the local organization.

The wind-up of the race for the Republican nomination for mayor here this week promises to be very exciting. Bookwalter and Stalnaker will make half a dozen speeches daily be-

sides giving attention to their organizations. According to the "dope" of a majority of the Republican leaders here the odds of ten to six that Stalnaker will defeat Bookwalter about states the relative strength of the two candidates, but in a direct primary there is a chance for all calculations to be upset.

Believed to Be a Crime.
Mentor, O., June 26.—The officials of the Lake Shore & Michigan Southern railway held an investigation into the causes of the wreck here last Wednesday night. Thirty witnesses were examined and an inspection made at the scene of the accident and of the misplaced switch. While nothing new developed that could be given out, it is understood that the theory is maintained that the disaster was due to a willful misplacement of the switch by some person as yet unknown, whom the railroad's detectives are trying to find.

Promised a Cordial Welcome.
Melbourne, June 26.—The commonwealth government has decided to invite Secretary of War Taft and the members of his family and Miss Roosevelt to extend their tour from the Philippine Islands to Australia. Assurance is given that the secretary and his party will be cordially welcomed by all classes.

Gerious Trolley Car Accident.
Peabody, Mass., June 26.—Five women were injured, one seriously, by the derailing of an electric car of the Boston & Northern Street railway here Sunday afternoon. The car carrying forty-five passengers, jumped the track at a curve and crashed into a trolley pole.

Deadly Target Practice.
Elwood, Ind., June 26.—Edmund O'Diehl, a fifteen-year-old boy, was shot and instantly killed by Peter Rusler, a boy of the same age, who was shooting at a target.

A Popular Measure.
Rome, June 26.—The chamber of deputies by a large majority has voted the military budget.

PUBLIC ANXIOUS

Speculation Still Rife Over Franco-German Situation.

Paris, June 26.—Speculation is rife regarding the probable purport of Germany's reply to the French note regarding the proposed international conference over Moroccan affairs, which reply has not yet been received. The statement that Germany would refrain from replying before further verbal explanations took place between Premier Rouvier and Prince Radolin, the German ambassador, is not regarded seriously in well-informed circles, where it is thought probable that an interview will not take place before Wednesday, when the reply from Berlin may reach Paris, but the officials are without definite information on this point. It is alleged that in this reply Germany requests a clearer statement of the French program for Moroccan affairs, suggesting that each subject be discussed separately in accordance with the terms of the Madrid convention, the two points principally referred to being coast trading and frontiers, and that should France accept Germany would abandon the idea of the conference. This, however, is regarded as a surmise.

Meanwhile public anxiety relative to eventualities, though somewhat abated, is still intense. The press continues to advise patience and confidence in the effort of the French government to arrive at a pacific settlement. It is pointed out that the negotiations have heretofore been conducted in a spirit of courtesy and that appearances show that everything is being done by both sides to reach an amicable arrangement.

A Dry Day for Austin.
Austin, Tex., June 26.—An old Sunday law was enforced rigorously here yesterday and saloons and even soda fountains were closed from midnight Saturday night until midnight last night. It was impossible to get a shoe shined or a cigar. Hundreds left the city on local trains for resorts outside the city limits.

Murdered for Money.
Charleston, W. Va., June 26.—Bacon Dickinson, prominent citizen, was murdered near Carbondale Sunday by an unknown person. Dickinson had a large sum of money in his pocket, and it is believed robbery was the motive. Two white men and two negroes who were seen following him are suspected.

Husband Held for Woman's Death.
Elgin, Ill., June 26.—Mrs. W. H. Durfee died suddenly soon after drinking a cup of coffee, and her husband is held under \$1,000 bonds pending the result of the coroner's investigation. The stomach of the dead woman was taken to Chicago to ascertain if death resulted from poison.

Debate Practically Concluded.
Paris, June 26.—With the settlement by the chamber of deputies of the controversial point in the church and state separation bill relating to the formation of governing bodies destined to take over control of the churches, the debate was practically concluded.

A Banker's Suicide.
Paris, June 26.—Georges Rodriguez, the banker, has committed suicide. It is stated that the financier lost heavily in a recent sharp decline in rentes. The liabilities of his bank are given out as \$2,000,000.

Howard Gates Wept When
Convicted of Em-
bezzlement.

VIOLATED HIS TRUST

Acting as Guardian of Two Estates
It Is Shown That He Misappropriated Funds.

When the Verdict Was Brought in
He Broke Down and Wept
Bitterly.

Anderson, Ind., June 26.—After Howard Gates was found guilty according to the verdict of the jury of having embezzled the funds of the Umbenhour and Winter estates, in which he was acting as guardian, he broke down and wept bitterly, and it was several minutes before Sheriff Smelser could get him to go to jail. Gates' attorneys immediately filed a petition asking for a new trial. Gates is accused of having appropriated \$1,200 belonging to the Umbenhour estate and \$700 of the Winter estate.

AFTER THIRTY-FIVE YEARS

A Pin Swallowed by a Baby Comes to Light.

New Albany, Ind., June 26.—A brass safety pin swallowed in his infancy by Eugene Brisby, city clerk, that for thirty-five years had been roaming about his anatomy, has just been extracted from his right knee by Dr. D. F. Davis. The pin was not discolored, and Mr. Brisby had felt no ill effects from its presence until the past few weeks.

He had been suffering from a pain in his knee which, owing to the fact that his left leg was amputated ten years ago, caused him great inconvenience, and for several days he has been confined at home. Dr. Davis was summoned and concluded at once that some foreign substance had become imbedded in the knee. An incision was made and the pin was extracted. It was not until Mr. Brisby's mother explained that in infancy he had swallowed a safety pin that the presence of the pin was accounted for. The mother was greatly alarmed at the time, but no serious results followed and the incident was forgotten.

Saved by an Overdose.
Lafayette, Ind., June 26.—As a result of eating potato salad flavored with hellebore, mistaken for mustard, Mr. and Mrs. Elias Loveless and a friend who is visiting them have been poisoned and they are in a serious condition. Two doctors were called, and after working over them for several hours they were restored to partial consciousness. The quantity of salad eaten probably saved all three from a terrible death, the physicians attributing their present existence to the fact that they took an overdose.

TERROR STRICKEN

People Leaving Lodz by the Thousands in Panic.

Lodz, Russian Poland, June 26.—The most serious phase of the fighting between the military and strikers is at an end, but there are still isolated attacks in the suburbs. At Baluty Sunday morning Cossacks attacked a Jewish family of five persons who were driving in a cab to the railway station, and shot and killed all, including the cabman.

At Pabjanice, near Lodz, workmen attacked two policemen and shot and killed one and wounded the other.

There is a general exodus from Lodz. Twelve thousand persons have already left and all trains are crowded. During the disturbances thirty-five government liquor stores were destroyed by the mobs, which appropriated all the cash and stamps found on the premises. The cash and stamps were added to the funds of the Socialist party. The workmen in all the factories struck today.

Some prominent citizens have telegraphed General Shustov, commanding the troops here, asking for protection against the brutality of the soldiers, especially the Cossacks, who in one instance killed and robbed the servant of a millionaire named Rosenblatt, who was carrying \$5,000 to the bank. The general promised to punish the offenders, but said he required witnesses to testify against the Cossacks.

It is quite impossible to give the exact number of killed and wounded, as reports vary according to the quarter in which they are obtained. Certainly the killed number more than 100, possibly 200, and the wounded five times as many.

FROM THE FRONT

Tokio Receives Details of Recent Engagement.

Tokio, June 26.—The following official dispatch has been received from the Japanese army headquarters in Manchuria: "The enemy holding the northwest eminence of Manchenzou was attacked and dislodged on the afternoon of June 22, but a portion of the enemy holding the hills to the

west offered stubborn resistance and the hills were finally taken by assault. Another force of the enemy holding the hills due north was attacked from the front and we simultaneously resorted to a turning movement, from the northeast, intercepting his retreat and causing him heavy loss. The enemy in confusion hoisted the Red Cross flag, but this did not stop our firing, and he fled north in disorder. His strength in cavalry and infantry was some 2,000 men and several guns. Fifty corpses were left on the field. The enemy's loss was fully 200. Our loss was insignificant."

Appeal to Red Flag.

Warsaw, June 26.—The proclamation issued Saturday by the Social Democratic party of Poland and Lithuania calling out workmen as a protest against the Lodz massacre declares that in order to show the solidarity of their brethren and to protest against "the new and incessant crimes of the emperor's government," all Warsaw must stop work today. The proclamation orders that not a single factory or workshop shall be operated and that offices, shops, restaurants and coffee houses must close and all traffic must cease. It says that the red flag, the flag of the workmen, must float in the streets of Warsaw, and calls upon all workmen to help their brothers arrange a general strike.

An Incident of War.

Singapore, June 26.—The British India Steam Navigation company's steamer Ikhona was sunk by the Russian cruiser Terek June 5, 150 miles north of Hong Kong. The crew was landed here last night by the Dutch steamer Perla, which the Terek met June 19. The Ikhona was carrying mails and rice from Rangoon to Yokohama.

Awaiting His Successor.

Washington, June 26.—Count Cassini, the Russian ambassador, has engaged passage for July 11 from New York. The ambassador will probably remain in Washington to await the arrival of his successor, Baron Rosen, who lands in New York July 6.

No Change at the Front.

St. Petersburg, July 26.—The emperor has received the following dispatch from General Linvitch, dated June 23: "There is no change in the position of the armies."

CONSIDER THIS OUTING

To Famous Seashore Resorts, in Planning Your Vacation.

By far the most attractive trip for health and pleasure the coming vacation season is that offered by the Seashore excursion Thursday, August 17th, over Pennsylvania Lines to Atlantic City, Cape May and seven other famous summer havens on the Atlantic Coast.

The fast through trains over Pennsylvania Lines take passengers in a few hours out of the heat and humidity of Summer to the cool breezes of old ocean. This Mid August excursion occurs in the season for rest when it is most convenient to leave business. Excursionists have the added pleasure of seeing Atlantic City when it is in full tide of the fashionable season. The greatest representative gatherings ever known at any resort are seen at Atlantic City. As many as 50,000 people at one time promenade the famous board walk. The fashionable bathing hours present an unparalleled scene—fully 100,000 bathers in the sea and on the beach.

The healthful effect of the seashore trip is due to salt and pine air. So beneficial has this proved that physicians send their patients there to get the benefit of breathing the pure ocean air.

Special low fares will be in effect for this Seashore excursion. Full information will be freely given by local ticket agents of the Pennsylvania Lines.

CEDAR SPRING

The team was hitched and as he went to the barn to get a sack of something the team just walked down to the house and became frightened near the postoffice and ran down Main street to Third street and ran against a telephone pole and broke it into three pieces and lodged into a bush and wire fence. No serious damage was done. But was this not carelessness to leave a team unhitched in an incorporated town? It seems to us this would be criminal carelessness.

A NEEDED CHANGE

President Issues Orders Easing Up On the Yellow Man.

HAD BEEN TOO STRICT

It Was Found That Chinese Exclusion Law Worked Hardship on the Intelligent Class.

While Aiming to Bar Coolies it Operated Seriously Against Travelers and Merchants.

Washington, June 26.—By direction of President Roosevelt action has been taken by the administration which not only will facilitate the landing in this country of Chinese of the exempt classes, but will eliminate from the emigration bureau such administrative features as have been the subject of criticism by Chinese. It is the declared intention of the president to see that Chinese merchants, travelers, students and others of the exempt classes shall have the same courtesy shown them by officers of the immigration bureau as is accorded to citizens of the most favored nation.

Representations have been made to the president that in view of alleged harsh treatment accorded to many Chinese seeking a landing in the United States, the commercial guilds of China have determined to institute a boycott on American manufacturers. The representations, backed by the authority of the American Asiatic Society and commercial bodies throughout the country, induced the president to make an investigation of the situation with a view of remedying the evils complained of, if they were found to exist. The subject was discussed thoroughly by the cabinet and the president took it up personally with Secretary Metcalf of the department of commerce and labor, who has supervision of the immigration bureau.

As a result of the inquiry orders have been issued to the diplomatic and consular representatives of the United States in China by the president himself that they must look closely to the performance of their duties under the exclusion law and see to it that members of the exempt classes coming to this country are provided with proper certificates. These certificates will be accepted at any port of the United States and will guarantee the bearer against any harsh or discourteous treatment. Such treatment, indeed, will be the cause of the instant dismissal of the offending official, whoever he may be.

In addition to the president's orders Secretary Metcalf has issued instructions to the immigration officers which it is believed will remedy the difficulty heretofore complained of by the Chinese government and individuals. It is anticipated that the prompt action taken by this government to meet the objections made by the Chinese will eliminate the possibility of serious trade difficulties between China and the manufacturers of this country.

TOO BIG A HURRY

People Going at Too Rapid a Pace, Says Dr. Gladden.

Columbus, O., June 26.—Rev. Dr. Washington Gladden preached last night at the First Congregational church upon the "speed craze." After referring to the craze for speed in cycling and automobilism, and its attendant risks and consequences, Dr. Gladden said: "This greed of velocity, has worse still to answer for. The recent reckless speeding of railway trains is part of the craze. I cannot believe that any real interest of man is secured by these furious schedules. They are a fruit of the distemper of the time. They involve risks and perils to trainmen as well as to passengers which are, I believe, wholly unwarranted by any normal human demand. It cannot be safe to send such prodigious constructions through the air at seventy miles an hour. The awful casualty at Mentor the other day, emphasizes the peril. It is quite misleading to say that the speed of the train had nothing to do with the accident. It is true that the train would have been thrown from the track even if it had been going at 35 miles an hour instead of 70, but it is not at all probable that a half or a quarter of the destruction of life would have occurred at the lower rate of speed. The momentum of the train would have been just half as great, and the crash just half as terrible. Any breaking of a wheel or an axle, any misplacement of a switch, any obstruction on the track, means vastly more of death and destruction to a train moving at that high rate.

"Speaking more generally, it is evident that this speed craze is not only lessening our pleasures and increasing our perils, but that it is also shortening the lives of many who are not victims of its slaughters. The rush and hurry are producing a great crop of fatal nervous disorders. That haste makes waste of life, in many cases, is far too manifest."

Missouri Woman Must Hang.

The Starr Piano Company are manufacturers and large dealers in high grade instruments, and their guarantee of quality means much.

BY THE WAYSIDE

When a man and his wife start to go anywhere, says an exchange, he tells her to get out his good suit, fix the buttons in his shirt, get his cuffs, good shoes, tie his necktie, brush his hat, perfume his handkerchief and a few other little jobs. Then he puts on his hat and says: "Great Scott! Ain't you ready yet?"

NIAGARA

There has been a great deal written in the past few months, of the probable effect the granting of so many rights to the waters of Niagara Falls for commercial purposes will have on the volume of water flowing over the falls, and whether the use of the waters of Niagara so extensively in generating power to be distributed over the entire state of New York, will to any extent mar the beauty and grandeur of this, the most wonderful work of nature. This controversy has renewed in those who have seen the Falls innumerable times, a desire to go back once more and see this, the grandest of all natural wonders of the world. No description can ever prepare those who have never seen Niagara for the awe-inspiring magnificence of this mighty cataract. No better opportunity will ever be offered the people to visit the Falls than presented by the Lake Erie & Western Railroad on their annual excursion Thursday, August 3rd. They are the pioneers in this business and offer an extremely low rate on this occasion. Each train will be under the supervision of men who have had years of experience, and these gentlemen will accompany the trains through the Falls, which will insure the passengers every comfort.

FOR GOOD FLOUR

To run you until harvest you had better get "INDIANA PRIDE" or "PURITY". We are in a position to furnish farmers with flour and take wheat or same at harvest. Also have arrangements so that the farmers who have wheat in the mill for flour can get flour down town and will not have to drive to the mill. Remember, we give best grade flour in exchange for wheat. We ask a trial from all.
